PROFESSIONAL SUMMARY

Aspiring cybersecurity professional with an B.Tech. in Information Technology Science, delivering proven expertise in vulnerability assessment, penetration testing, and malware analysis. A practical experience in SIEM monitoring, security log analysis, alert investigation, vulnerability assessment, incident response, and threat detection. Hands-on experience with Splunk, Wazuh, ELK Stack, Wireshark, Nessus, Nmap, Burp Suite, and Metasploit through security labs. Experienced in analysing Windows Event Logs, authentication events, network traffic, security alerts, and Indicators of Compromise (IOCs). Seeking an entry-level SOC Analyst / Cybersecurity Analyst role.

TECHNICAL SKILLS

- **Cybersecurity:** Security Operations Center (SOC), VAPT, Malware Analysis, Network Security, Web Application Security, MITRE ATT&CK, OWASP Top 10, CVSS
- **SIEM & Monitoring:** Splunk, Wazuh, ELK Stack, Elasticsearch, Logstash, Kibana, SIEM, Security Monitoring, Log Analysis, Alert Triage, Event Correlation
- **Tools & Technologies:** Splunk, Kali Linux, Wireshark, Burp Suite, Nmap, Metasploit, Shodan, Python, SQL, APIs

EXPERIENCE

Cybersecurity Trainee | *TBH Academy, Bengaluru*

December 2025 – Present

- Pursuing a 6-month hands-on cybersecurity training program covering VAPT, SOC operations, and digital forensics.
- Performed vulnerability scanning and security assessment exercises using Nessus in a controlled lab environment.
- Analyzed security logs and investigated simulated security events using Splunk SIEM.
- Performed hands-on exercises involving IoT, RF, and hardware security concepts using Flipper Zero.

PROJECTS

Wazuh SIEM – Security Monitoring & Threat Detection

- Deployed Wazuh SIEM with Windows/Linux endpoints for centralized log collection, security monitoring, alert triage, IOC analysis, and incident investigation.

ELK Stack – Centralized Security Log Monitoring

- Built an Elasticsearch, Logstash & Kibana (ELK) lab for centralized log ingestion, analysis, visualization, security monitoring, and abnormal-event detection.

Windows Log Monitoring & Brute-Force Detection using Splunk

- Configured Splunk Enterprise & Universal Forwarder on Windows Server 2022 and investigated 500+ failed authentication events using Windows Event Logs and Splunk searches.

Vulnerability Assessment & Penetration Testing (VAPT)

- Performed Nessus vulnerability assessment, identifying 251 vulnerabilities, analysing CVEs/misconfigurations, and applying CVSS-based risk prioritization and remediation.

CERTIFICATIONS

- **Fortinet Certified Associate in Cybersecurity** | *Fortinet*
- **Fortinet Certified Fundamentals in Cybersecurity** | *Fortinet*
- **Ethical Hacker** | *Cisco Networking Academy*
- **Endpoint Security** | *Cisco Networking Academy*
- **Network Defense** | *Cisco Networking Academy*
- **Certified Ethical Hacker (CEH v13)** | *EC-Council(InProgress)*
- **Certified SOC Analyst (CSA)** | *EC-Council(InProgress)*

EDUCATION

B.Tech. in Information Technology – *Mahendra Engineering College* March 2025 | CGPA: 7.8 **Concentrations:** *Information Technology | Coursework: Computer Networks, Operating Systems, Information Security, Cloud Technology, DBMS*
